CPSI CANCELLATION POLICY

IF YOU CANCEL: A \$150 fee will be retained for cancellation for each course received in writing at least five days in advance of the course. There will be no refund for cancellation notices received within four days of the course, or for 'no-show' registrants.

SHOULD CPSI CANCEL: Should CPSI be required to cancel a course, participants will be notified as soon as possible. CPSI is not responsible for costs already incurred by the participants at the time of cancellation. If you have additional questions regarding CPSI's cancellation policy, please contact the CPSI office at 1-877-536-2338.

Canadian Playground Inspector Certification Education Program

designed for

Nova Scotia

Theory - April 27-28, Halifax
 Practical - April 29-30, Halifax

CPSI Mission

"CPRA, through a network of partners, provides education and support in playground safety to industry practitioners and associated stakeholders. Our product range is creative, needs driven, user friendly and sustainable."

Nova Scotia Playground Safety Spring 2010 Education Program

The Canadian Playground Safety Institute, in association with Recreation Nova Scotia, is offering a four day course for participants who wish to complete playground inspector certification training.

This training is designed for owner/operators, health inspectors, daycare staff, maintenance/public works staff for schools, municipalities, housing complexes and other areas that contain public playspaces, private inspectors and contractors, manufacturers, installers, parks staff, insurance agents, etc.

This playground safety education program helps individuals thoroughly understand the Canadian playspace safety standard from CAN/CSA Z614 "Children's Playspaces and Equipment" and teaches participants how to conduct a hands-on inspection/audit of a playspace.

The Canadian Parks and Recreation Association (CPRA) currently offers a Canadian Certified Playground Inspector certification through the Canadian Playground Safety Institute (CPSI) for individuals who complete the CPSI Theory and CPSI Practical Courses and achieve passing grades on both exams. The certification is valid for a three year period and can be renewed by completing

a recertification exam either online or in the classroom.

These courses are also open to participants outside of Nova Scotia.

Individuals who only want to take the Theory Course are welcome to attend. However, the Theory Course is a prerequisite for the Practical course, whether you complete it during this session, online or elsewhere at any time within the 12 months prior to the course.

Inspectors with recently, or soon to be, expired certifications, may recertify by taking the Practical Course and rewriting the classroom recertification exam. If you are recertifying, please indicate your intent by marking the recertification exam box on the registration form.

If you have questions about these courses or certification, please contact CPSI by email at cpsci@cptra.ca, by phone toll-free at 1-877-536-2338 or visit the training and education/playground safety website pages at www.cptra.ca.

Course Information

Theory- April 27-28, 2010

Practical - April 29-30, 2010

Halifax, Nova Scotia

Sackville Heights Community Center

45 Connolly Rd, Lr Sackville

*We would like to thank our host,
Halifax Regional Municipality,
for their assistance with this event.*

Theory Course Description

Certification - Part 1

Theoretical training based on the CAN/CSA Z614, Children's Playspaces and Equipment Standards.

Participants will learn to:

- understand the CAN/CSA Z614 Standard
- identify hazards and equipment not in compliance with CSA Standard
- understand inspection requirements and process
- manage risk and reduce liability

Practical Course Description

Certification Part 2

Practical, hands-on training for applying the CAN/CSA Children's Playspaces and Equipment Standards and for performing an audit.

Participants will learn to:

- take into consideration factors that affect playground safety beyond the CSA Z614 Standard
- evaluate existing play structures for compliance with the CSA standard
- complete a written inspection report
- provide recommendations for upgrading equipment to comply with the CSA standard with the understanding of safety and cost implications
- identify and implement an effective inspection and maintenance program

Who should participate in these courses?

Owner/operators, health inspectors, daycare staff, maintenance/public works staff for schools, municipalities, housing complexes and other areas that contain public playspaces, private inspectors and contractors, manufacturers, installers, parks staff, insurance agents, etc.
